PROFILE SUMMARY

Enthusiastic and detail-oriented Full Stack Developer with a strong foundation in web development, including front-end and back-end technologies such as HTML, CSS, JavaScript, and Node.js. Passionate about learning new technologies and building efficient, user-friendly applications. Strong problem-solving skills and a commitment to delivering high-quality work as part of a collaborative team

PROJECTS

Modrate.Al
Auto Generated VideoClip using Ai
- Developed a platform that allows creators to monetize their content through subscription-based membership
- Enabled creators to create personalized profiles showcasing their content and subscription tiers
- Integrated tier-based subscription functionality with customizable benefits for supporters.
- **Technologies Used: React, Tailwind CSS, Node.js, Express, MongoDb, Next.js**

PYARASONG
Music Streaming Website

- Designed and developed a music streaming platform inspired by Spotify, offering users the ability to discover, stream, and manage their favorite songs
- Implemented a searchable and categorized music library with options for playlists, albums, and artists
- . **Technologies Used: HTML , CSS, JAVASCRIPT**

Password Manager
- Developed a secure and user-friendly password manager application to store and manage user credentials efficiently. Built using React, Tailwind CSS, Node.js, and MongoDB.
- Reflects your ability to design and build a solution for a common user challenge (password management).
- Demonstrates hands-on experience with RESTful APIs and database management, crucial for full-stack roles.
- **Technologies Used: React, Tailwind CSS, Node.js, Express, MongoDB**
